The purpose of this training is to ensure that proper management of handling, storing, treating or transporting biomedical waste at the Florida Tech Campus is in order and in compliance with all Federal and/or State laws, as well as Chapter 64E-16 of the Florida Administrative Code (F.A.C.). The BMW plan includes information on training, procedures for segregating, labeling, packaging, transporting, storing, and treating biomedical waste; procedures for decontaminating biomedical waste spills and a contingency plan for emergencies.

Outline of Training:

1. Review Contents of Chapter 64E-16, F.A.C.
2. Review Facility Biomedical Waste Plan or review PowerPoint presentation

BMW training is an annual training.

With my signature, I agree that I had the opportunity to read the facility’s written Biomedical Waste plan that is in compliance with Chapter 64E-16, F.A.C. and the facility’s PowerPoint presentation of the BMW plan.
