OVERVIEW OF DAVIS NEW YORK VENTURE FUND

INVESTMENT OBJECTIVE AND PRINCIPAL INVESTMENT STRATEGIES

Davis New York Venture Fund's (the "Fund") investment objective is long-term growth of capital. Davis Selected Advisers, L.P., ("Davis Advisors" or the "Adviser") the Fund's investment adviser, uses the Davis Investment Discipline to invest the majority of the Fund's assets in equity securities issued by large companies with market capitalizations of at least \$10 billion. See "The Davis Investment Discipline" below.

The Fund has the flexibility to invest a limited portion of its assets in companies of any size, to invest in companies whose shares may be subject to controversy, to invest in foreign securities, and to invest in non-equity securities. See "Additional Information About Investments" in this prospectus.

THE DAVIS INVESTMENT DISCIPLINE

Davis Advisors manages equity funds using the Davis Investment Discipline. We conduct extensive research to try to identify businesses that possess characteristics which we believe foster the creation of long-term value, such as proven management, a durable franchise and business model, and sustainable competitive advantages. We aim to invest in such businesses when they are trading at discounts to their intrinsic worth. We emphasize individual stock selection and believe that the ability to evaluate management is critical. We routinely visit managers at their places of business in order to gain insight into the relative value of different businesses. Such research, however rigorous, involves predictions and forecasts that are inherently uncertain.

Over the years, Davis Advisors has developed a list of characteristics that we believe help companies to create shareholder value over the long term and manage risk. While few companies possess all of these characteristics at any given time, Davis Advisors searches for companies that demonstrate a majority or an appropriate mix of these characteristics.

FIRST CLASS MANAGEMENT

- Proven track record
- Significant personal ownership in business
- Intelligent allocation of capital
- Smart application of technology to improve business and lower costs

STRONG FINANCIAL CONDITION AND SATISFACTORY PROFITABILITY

- Strong balance sheet
- Low cost structure
- High after-tax returns on capital
- High quality of earnings

STRONG COMPETITIVE POSITIONING

- Non-obsolescent products / services
- Dominant or growing market share
- Participation in a growing market
- Global presence and brand names

After determining which companies we wish to own, we then turn our analysis to determining the intrinsic value of those companies' common stock. We seek common stock which can be purchased at attractive valuations relative to their intrinsic value. Our goal is to invest in companies for the long term. We consider selling a company's stock if we believe the stock's market price exceeds Davis Advisors' estimates of intrinsic value, or if the ratio of the risks and rewards of continuing to own the company is no longer attractive.

DETERMINING IF THIS FUND IS RIGHT FOR YOU

You should consider investing in this Fund if:

- You are seeking long-term growth of capital.
- You are more comfortable investing in established, well-known companies.
- You are investing for the long term.

You should not invest in this Fund if:

- You are worried about the possibility of sharp price swings and dramatic market declines.
- You are interested in earning current income.
- You are investing for the short term.

PRINCIPAL RISKS OF INVESTING IN THE FUND

If you buy shares of Davis New York Venture Fund, you may lose some or all of the money that you invest. The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. This section describes what we think are the most significant factors (but not the only factors) that could cause the value of your investment in the Fund to decline, and which could prevent the Fund from achieving its stated objective.

- **MARKET RISK.** The market value of shares of common stock can change rapidly and unpredictably as a result of political or economic events having little or nothing to do with the performance of the companies in which we invest.
- **COMPANY RISK.** The market values of common stock vary with the success or failure of the company issuing the stock. Many factors can negatively affect a particular company's stock price, such as poor earnings reports, loss of major customers, major litigation against the company or changes in government regulations affecting the company or its industry. The success of the companies in which the Fund invests largely determines the Fund's long-term performance.
- **FINANCIAL SERVICES RISK.** The Fund historically has invested a significant portion of its assets in the financial services sector. Risks of investing in the financial services sector include (i) Regulatory actions: financial services companies may suffer setbacks if regulators change the rules under which they operate; (ii) Changes in interest rates: unstable interest rates, and/or rising interest rates, may have a disproportionate affect on companies in the financial services sector; (iii) Non-diversified loan portfolios: financial services companies whose securities the Fund purchases may themselves have concentrated portfolios, such as a high level of loans to real estate developers, which makes them vulnerable to economic conditions that affect that industry; and (iv) Competition: the financial services sector has become increasingly competitive.
- **FOREIGN COUNTRY RISK.** The Fund may invest a portion of its assets in companies operating, incorporated, or principally traded in foreign countries. Investing in foreign countries involves risks that may cause the Fund's performance to be more volatile than it would be if the Fund invested solely in the United States. Foreign economies may not be as strong or as diversified, foreign political systems may not be as stable, and foreign financial reporting standards may not be as rigorous as they are in the United States. In addition, foreign capital markets may not be as well developed, so securities may be less liquid, transaction costs may be higher, and investments may be subject to government regulation. Securities issued by foreign companies are frequently denominated in foreign currencies. The change in

value of a foreign currency against the U.S. dollar will result in a change in the U.S. dollar value of securities denominated in that foreign currency. The Fund generally does not hedge its currency risk. When the value of a foreign currency declines against the U.S. dollar, the value of the Fund's shares will tend to decline.

- **HEADLINE RISK.** We seek to acquire companies with durable business models that can be purchased at attractive valuations relative to what Davis Advisors believes to be the companies' intrinsic values. We may make such investments when a company becomes the center of controversy after receiving adverse media attention. The company may be involved in litigation, the company's financial reports or corporate governance may be challenged, the company's Annual report may disclose a weakness in internal controls, greater government regulation may be contemplated, or other adverse events may threaten the company's future. While we research companies subject to such contingencies, we cannot be correct every time, and the company's stock may never recover.
- **SELECTION RISK.** The securities we select for the Fund may underperform the S&P 500® Index or other funds with similar investment objectives and strategies.

The Fund's shares are not deposits or obligations of any bank, are not guaranteed by any bank, are not insured by the FDIC or any other agency, and involve investment risks, including possible loss of the principal amount invested.

PERFORMANCE INFORMATION

The bar chart and table that follow provide an indication of the risks of investing in Davis New York Venture Fund by showing changes in the Fund's year-to-year performance and by showing how the Fund's average annual returns compare to those of the S&P 500® Index, a widely recognized unmanaged index of stock performance. The Fund is not managed to track any particular index and, consequently, the performance of the Fund may deviate significantly from the performance of the Index. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future.

* The inception of Class Y shares was 10/2/96.

After-tax returns are calculated using the highest historical individual federal marginal income tax rates for each year and do not reflect the impact of state and local taxes.

Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

If returns are negative, returns after taxes on distributions and sale of fund shares may be higher than returns before taxes, as the resulting capital losses from the sale of fund shares would be available to offset capital gains from other investments.

S&P 500® Index returns do not reflect deductions for fees, expenses, or taxes.

ADDITIONAL INFORMATION ABOUT INVESTMENTS

Davis New York Venture Fund's investment objective is long-term growth of capital. The Fund's investment objective is not a fundamental policy and may be changed by the Board of Directors without a vote of shareholders. The Fund's prospectuses would be amended before any change in investment objective, and shareholders would be promptly notified of the change.

The Fund's principal investment strategies and main risks are described in the Overview section of this prospectus. The Fund may also purchase other kinds of securities, engage in active trading (which would increase portfolio turnover and commission expenses and could increase taxable distributions), or employ other investment strategies that are not principal investment strategies, if, in Davis Advisors' professional judgment, the securities, trading, or investment strategies are appropriate. Factors that Davis Advisors considers in pursuing these other strategies include whether the strategies (i) would be consistent with shareholders' reasonable expectations; (ii) would assist the Fund in pursuing its investment objective; (iii) are consistent with the Fund's investment strategy; (iv) would cause the Fund to violate any of its investment restrictions; or (v) would materially change the Fund's risk profile as described in the Fund's prospectus and Statement of Additional Information, as amended from time to time. The Statement of Additional Information discusses these securities and investment strategies.

SHORT-TERM INVESTMENTS. The Fund uses short-term investments, such as treasury bills and repurchase agreements, to maintain flexibility while evaluating long-term opportunities. The Fund may also use short-term investments for temporary defensive purposes. At such times the Fund will not be pursuing its normal investment policies. In the event that our investment professionals anticipate a decline in the market values of the companies in which the Fund invests (due to economic, political or other factors), the Fund may reduce its risk by investing in short-term securities until market conditions improve. Unlike equity securities, these investments will not appreciate in value when the market advances and will not contribute to the Fund's investment objective.

For more details concerning current investments and market outlook, please see the Fund's most recent Annual or Semi-annual report.

EXECUTION OF PORTFOLIO TRANSACTIONS. Davis Advisors places orders with broker-dealers for Davis Funds' portfolio transactions. Davis Advisors seeks to place portfolio transactions with brokers or dealers who will execute transactions as efficiently as possible and at the most favorable net price. In placing executions and paying brokerage commissions or dealer markups, Davis Advisors considers price, commission, timing, competent block trading coverage, capital strength and stability, research resources, and other factors. Subject to best price and execution, Davis Advisors may place orders for Davis Funds' portfolio transactions with broker-dealers who have sold shares of Davis Funds. However, when Davis Advisors places orders for Davis Funds' portfolio transactions, it does not give any consideration to whether a broker-dealer has sold shares of Davis Funds. In placing orders for Davis Funds' portfolio transactions, the Adviser does not commit to any specific amount of business with any particular broker-dealer.

Over the last three years the Fund paid the following brokerage commissions:

DAVIS NEW YORK VENTURE FUND	FOR THE YEAR ENDED JULY 31,		
	2007	2006	2005
Brokerage commissions paid:	\$ 6,387,930	\$ 7,852,061	\$ 5,272,429
Brokerage as a percentage of average net assets:	0.01%	0.02%	0.02%

DAVIS MANAGEMENT

DAVIS ADVISORS

Davis Advisors serves as the investment adviser for each of the Davis Funds. The Davis Funds are a family of mutual funds managed by Davis Advisors. Davis Advisors' offices are located at 2949 East Elvira Road, Suite 101, Tucson, Arizona 85706. Davis Advisors provides investment advice for the Davis Funds, manages their business affairs, and provides day-to-day administrative services. Davis Advisors also serves as investment adviser for other mutual funds and institutional and individual clients.

For the fiscal year ended July 31, 2007, Davis Advisors' compensation from the Fund for its services (based on average net assets) was 0.48%.

Davis Selected Advisers-NY, Inc., serves as the sub-adviser for each of the Davis Funds. Davis Selected Advisers-NY, Inc.'s offices are located at 609 Fifth Avenue, New York, New York 10017. Davis Selected Advisers-NY, Inc., provides investment management and research services for the Davis Funds and other institutional clients, and is a wholly owned subsidiary of Davis Advisors. Davis Selected Advisers-NY, Inc.'s fee is paid by Davis Advisors, not the Davis Funds.

Every year the Fund's Board of Directors considers whether to re-approve the Fund's advisory and sub-advisory agreements. The basis for the Board's decision is described in the Fund's most recent Annual Report.

INVESTMENT PROFESSIONALS

- SHELBY M.C. DAVIS serves as Adviser and Founder of Davis Advisors. As Adviser, Mr. Davis provides the firm with analysis regarding companies, the economy, and the markets in general. He previously served as Davis New York Venture Fund's Portfolio Manager from its inception in 1969 until February 1997, and served as President of the Davis Funds until March 2000.
- CHRISTOPHER C. DAVIS has served as a Portfolio Manager of Davis New York Venture Fund since October 1995, and also manages other equity funds advised by Davis Advisors. He has served as President of the Fund since March 2000. Mr. Davis served as Assistant Portfolio Manager and Research Analyst working with Shelby M.C. Davis from September 1989 through September 1995.
- KENNETH CHARLES FEINBERG has served as a Portfolio Manager of Davis New York Venture Fund since May 1998 and also manages other equity funds advised by Davis Advisors. Mr. Feinberg started with Davis Advisors as a Research Analyst in December 1994.

The Statement of Additional Information provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers, and the Portfolio Managers' investment in the Fund.

ONCE YOU INVEST IN DAVIS FUNDS

This section describes how your investment in the Fund is valued, how you earn money on your investment and how the government may tax these earnings.

HOW YOUR SHARES ARE VALUED

Once you open your Davis Funds account, you may buy or sell shares on any business day. The price of your shares in a Davis Fund is based upon the total value of the Fund's investments. Your account balance may change daily because the share price may change daily.

The value of one share of a Davis Fund, also known as the net asset value, or NAV, is calculated at 4 p.m. Eastern time on each day the New York Stock Exchange is open or as of the time the Exchange closes, if earlier.

The business sections of many, but not all, major newspapers publish Davis Funds' daily net asset values. If you have access to the Internet, you can also check the net asset value on our website (www.davisfunds.com).

VALUATION OF PORTFOLIO SECURITIES

Your shares will be purchased or sold at the net asset value next determined after Davis Funds' transfer agent receives your request to purchase or sell shares in good order.

Securities are valued primarily on the basis of market quotations. However, Davis Funds have adopted procedures for making "fair value" determinations if market quotations are not readily available. The Fund uses fair value prices any time Davis Advisors concludes that reliable market quotations for the Fund's portfolio securities are not readily available from an approved third party pricing service or from independent brokers.

Examples of when fair value pricing may be used include illiquid or thinly traded securities, and securities whose values have been affected by a significant event occurring after the close of their primary markets. Davis Funds use an independent vendor to assist in fair value pricing of foreign securities when deemed appropriate. The use of fair value pricing by the Fund may cause the net asset value of its shares to differ significantly from the net asset value that would be calculated using last reported prices.

Some of the Fund's securities may be traded in markets that close at a different time than when the Fund's shares are priced. Events affecting portfolio values that occur after the time that such markets close and the time the Fund's shares are priced may result in the use of fair value pricing, as described above. Likewise, because foreign securities trade in markets and exchanges that operate on U.S. holidays and weekends, the values of some of the Fund's foreign investments might change significantly on those days when investors cannot buy or redeem shares. Davis Funds have adopted procedures designed to identify and react to significant events in foreign markets that would have a material effect on a Fund's net asset value. Notwithstanding, the net asset value of a Fund's shares may change on days when shareholders will not be able to purchase or redeem Fund shares.

Securities denominated in foreign currencies and traded in foreign markets will have their values converted into U.S. dollar equivalents at the prevailing exchange rates as computed by State Street Bank and Trust. Fluctuation in the values of foreign currencies in relation to the U.S. dollar may affect the net asset value of a Fund's shares even if there has not been any change in the foreign currency prices of that Fund's investments.

PORTFOLIO HOLDINGS

A description of Davis Funds' policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the Statement of Additional Information.

Davis Funds' portfolio holdings are published and mailed to shareholders twice a year in the Annual and Semi-Annual reports which are mailed approximately 60 days after the end of the Fund's second and fourth fiscal quarters. In addition, each Fund publishes its portfolio holdings on the Davis Funds' website (www.davisfunds.com) and the SEC website (www.sec.gov) approximately 60 days after the end of each fiscal quarter. Other information concerning the Funds' portfolio holdings may also be published on the Davis Funds' website from time to time.

HOW WE PAY EARNINGS

There are two ways you can receive payments from the Davis Fund you invest in:

- **DIVIDENDS.** Dividends are distributions to shareholders of net investment income and short-term capital gains on investments.
- **CAPITAL GAINS.** Capital gains are profits received by a Fund from the sale of securities held for the long term, which are then distributed to shareholders.

If you would like information about when a particular Davis Fund pays dividends and distributes capital gains, please call 1-800-279-0279. Unless you choose otherwise, the Davis Funds will automatically reinvest your dividends and capital gains in additional Fund shares.

You can request to have your dividends and capital gains paid to you by check, deposited directly into your bank account, paid to a third party or sent to an address other than your address of record.

You will receive a statement each year detailing the amount of all dividends and capital gains paid to you during the previous year. To ensure that these distributions are reported properly to the U.S. Treasury, you must certify on your Davis Funds Application Form or on IRS Form W-9 that your Taxpayer Identification Number is correct and you are not subject to backup withholding. If you are subject to backup withholding, or you did not certify your Taxpayer Identification Number, the IRS requires the Davis Funds to withhold a percentage of any dividends paid and redemption or exchange proceeds received.

FEDERAL INCOME TAXES

TAXES ON DISTRIBUTIONS

Distributions you receive from the Fund may be subject to income tax and may also be subject to state or local taxes unless you are exempt from taxation.

For federal tax purposes, any taxable dividends and distributions of short-term capital gains are treated as ordinary income. The Fund's distributions of net long-term capital gains are taxable to you as long-term capital gains. Any taxable distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest distributions or receive them in cash.

Davis Funds will send you a statement each year showing the tax status of your Fund distributions.

TAXES ON TRANSACTIONS

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares and the price you receive when you sell them.

More information concerning federal taxes is available in the Statement of Additional Information. We recommend that you consult with a tax advisor about dividends and capital gains that may be received from the Davis Funds.

FEES AND EXPENSES OF THE FUND

The Fund must pay operating fees and expenses.

MANAGEMENT FEE

The management fee covers the normal expenses of managing the Fund, including compensation, research costs, corporate overhead expenses and related expenses. Davis Funds offer different Classes of shares in other prospectuses. The difference in the fee structure between the Classes is primarily the result of fees and expenses paid by the Fund to dealers and financial institutions for providing services to shareholders. Accordingly, the core investment advisory expenses do not vary by Class. Different fees and expenses will affect performance.

OTHER EXPENSES

Other expenses include miscellaneous fees from affiliated and outside service providers. These fees may include legal, audit and custodial fees, the costs of printing and mailing of reports and statements, automatic reinvestment of distributions and other conveniences, and payments to third parties that provide recordkeeping services or administrative services for investors in the Fund.

TOTAL FUND OPERATING EXPENSES

The total cost of operating a mutual fund is reflected in its expense ratio. A shareholder does not pay operating costs directly; instead, operating costs are deducted before the Fund's NAV is calculated and are expressed as a percentage of the Fund's average daily net assets. The effect of these fees is reflected in the performance results for that Class of shares. Investors should examine total operating expenses closely in the prospectus, especially when comparing one fund with another fund in the same investment category.

FEES PAID TO DEALERS AND OTHER FINANCIAL INTERMEDIARIES

Broker-dealers and other financial intermediaries ("Qualifying dealers") may charge Davis Distributors, LLC (the "Distributor") substantial fees for selling Davis Funds' shares and providing continuing support to shareholders. Qualifying dealers may charge (i) sales commissions from sales charges paid by purchasing shareholders; (ii) distribution and service fees from the Funds' 12b-1 distribution plans; (iii) record-keeping fees from the Funds for providing record-keeping services to investors who hold Davis Funds shares through dealer-controlled omnibus accounts; and (iv) other fees, described below, paid by the Distributor from its own resources.

Qualifying dealers may, as a condition to distributing shares of the Davis Funds, request that the Distributor pay or reimburse the Qualifying dealer for (i) marketing support payments including business planning assistance, educating personnel about the Davis Funds, and shareholder financial planning needs, placement on the dealer's list of offered funds, and access to sales meetings, sales representatives and management representatives of the dealer; and (ii) financial assistance charged to allow the Distributor to participate in and/or present at conferences or seminars, sales or training programs for invited registered representatives and other employees, client and investor events and other dealer-sponsored events. These additional fees are sometimes referred to as "revenue sharing" payments. A number of factors are considered in determining fees paid to Qualifying dealers, including the dealer's sales and assets, and the quality of the dealer's relationship with the Distributor. Fees are generally based on the value of shares of the Fund held by the dealer or financial institution for its customers or based on sales of Fund shares by the dealer or financial institution, or a combination thereof. Davis Advisors may use its profits from the advisory fee it receives from the Fund to pay some or all of these fees. Some dealers may also choose to pay additional compensation to their registered representatives who sell the Funds. Such payments may be associated with the status of a Fund on a financial intermediary's preferred list of funds or otherwise associated with the financial intermediary's marketing and other support activities. The foregoing arrangements may create an incentive for the brokers, dealers or other financial institutions, as well as their registered representatives, to sell the Davis Funds rather than other funds.

In 2007 Davis Advisors and the Distributor were charged additional fees by the Qualifying dealers listed below. Davis Advisors and the Distributor paid these fees from their own resources. These Qualifying dealers may provide the Davis Funds enhanced sales and marketing support and financial advisers employed by the Qualifying dealers may recommend the Davis Funds rather than other funds. Qualifying dealers may be added or deleted at any time.

ADP Broker Dealer, Inc.; AG Edwards & Sons; Ameriprise Financial Services, Inc.; Charles Schwab & Co., Inc.; Citigroup Global Markets, Inc.; Citistreet Associates; Comerica Bank; Diversified Investment Advisors, Inc.; Fidelity Brokerage Services, LLC.; HSBC Bank USA; ING Life Insurance and Annuity Co.; ING Financial Advisers, LLC; John Hancock Life Insurance Company (U.S.A.); John Hancock Life Insurance Company of New York; Marshall & Ilsley Trust Company; Massachusetts Mutual Life Insurance Co.; Mercer HR Services LLC; Merrill Lynch, Pierce, Fenner & Smith, Inc.; Merrill Lynch Life Insurance Co.; Morgan Stanley, Inc.; National Financial Services, LLC.; Nationwide Financial Services, Inc.; New York Life Distribution; Piper Jaffray, Inc.; Prudential Investment Management Services, LLC.; Raymond James & Associates, Inc.; T. Rowe Price Investment Services, Inc.; The Princeton Retirement Group, Inc.; The Vanguard Group, Inc.; TruSource, a division of Union Bank of California; UBS Financial Services, Inc.; Wachovia Bank N.A.; Wachovia Securities, Inc.; Wells Fargo Bank, N.A.; and Union Bank of California.

In addition, the Distributor may, from time to time, pay additional cash compensation or other promotional incentives to authorized dealers or agents who sell shares of the Davis Funds. In some instances, such cash compensation or other incentives may be offered only to certain dealers or agents who employ registered representatives who have sold or may sell significant amounts of shares of the Davis Funds during specified periods of time.

Although Davis Funds may use brokers who sell shares of the Funds to execute portfolio transactions, the Funds do not consider the sale of fund shares as a factor when selecting brokers to execute portfolio transactions.

Investors should consult their financial intermediaries regarding the details of payments they may receive in connection with the sale of Fund shares.

DUE DILIGENCE MEETINGS. The Distributor routinely sponsors due diligence meetings for registered representatives during which they receive updates on various Davis Funds and are afforded the opportunity to speak with investment professionals. Invitation to these meetings is not conditioned on selling a specific number of shares. Those who have shown an interest in Davis Funds, however, are more likely to be considered. To the extent permitted by their firm's policies and procedures, registered representatives' expenses in attending these meetings may be covered by the Distributor.

SEMINARS AND EDUCATIONAL MEETINGS. The Distributor may defray certain expenses of Qualifying dealers incurred in connection with seminars and other educational efforts subject to the Distributor's policies and procedures governing payments for such seminars. The Distributor may share expenses with Qualifying dealers for costs incurred in conducting training and educational meetings about various aspects of the Funds for the employees of Qualifying dealers. In addition, the Distributor may share expenses with Qualifying dealers for costs incurred in hosting client seminars at which the Fund is discussed.

RECORDKEEPING FEES. Certain Qualifying dealers have chosen to maintain omnibus accounts with the Davis Funds. In an "omnibus account," the Fund maintains a single account in the name of the dealer and the dealer maintains all of its clients' individual shareholder accounts. Likewise, for many retirement plans, a third party administrator may open an omnibus account with the Davis Funds and the administrator will then maintain all of the participant accounts. Davis Advisors, on behalf of the Funds, enters into agreements whereby the Funds are charged by the dealer or administrator for such recordkeeping services.

Recordkeeping services typically include (i) establishing and maintaining shareholder accounts and records; (ii) recording shareholder account balances and changes thereto; (iii) arranging for the wiring of funds; (iv) providing statements to shareholders; (v) furnishing proxy materials, periodic Davis Funds reports, prospectuses and other communications to shareholders as required; (vi) transmitting shareholder

transaction information; and (vii) providing information in order to assist Davis Funds in their compliance with state securities laws. Each Davis Fund typically would be paying these shareholder servicing fees directly, were it not that the Qualifying dealer holds all customer accounts in a single omnibus account with each Davis Fund.

OTHER COMPENSATION. The Distributor may, from its own resources and not the Funds, pay additional fees to the extent not prohibited by state or federal laws, the Securities and Exchange Commission (SEC), or any self-regulatory agency, such as the Financial Industry Regulatory Authority (FINRA).

HOW TO OPEN AN ACCOUNT

YOU CAN OPEN AN ACCOUNT WITH DAVIS FUNDS IF YOU INVEST:

- At least \$5 million for an institution (trust company, bank trust, endowment, pension plan, foundation) acting on behalf of its own account or one or more clients.
- At least \$5 million for a government entity (a state, county, city, department, authority or similar government agency).
- With an account established under a "wrap account" or other fee-based program that is sponsored and maintained by a registered broker-dealer approved by the Distributor.
- At least \$500,000 for a 401(k) plan, 457 plan, employer sponsored 403(b) plan, profit sharing and money purchase pension plan, defined benefit plan, or non-qualified deferred compensation plan where plan level or omnibus accounts are held on the books of the Fund.

The Distributor may waive the investment minimums at its discretion. For purposes of the minimums, the Distributor may treat appropriately related investors (for example, trust funds of the same bank, separate accounts of the same insurance company, clients whose funds are managed by a single bank, insurance company, investment adviser, broker-dealer, or institutional clients of a financial intermediary that maintains an omnibus account with the fund) as a single investor.

TWO WAYS YOU CAN OPEN AN ACCOUNT

- **BY MAIL.** Complete and sign the Application Form and mail it to our service provider, State Street Bank and Trust. Include a check made payable to DAVIS FUNDS. All purchases by check should be in U.S. dollars. DAVIS FUNDS WILL NOT ACCEPT THIRD-PARTY CHECKS, STARTER CHECKS, TRAVELER'S CHECKS OR MONEY ORDERS.
- **BY DEALER.** You may have your dealer order and pay for the shares. In this case, you must pay your dealer directly. Your dealer will then order the shares from the Distributor. Please note that your dealer may charge a service fee or commission for these transactions.

ANTI-MONEY LAUNDERING COMPLIANCE

Davis Funds and the Distributor are required to comply with various anti-money laundering laws and regulations. Consequently, the Funds or the Distributor may request additional information from you to verify your identity and the source of your funds. If you do not provide the requested information, the Davis Funds may not be able to open your account. If at anytime the Funds believe an investor may be involved in suspicious activity or if certain account information matches information on government lists of suspicious persons, the Fund and the Distributor may choose not to establish a new account or may be required to "freeze" a shareholder's account. They may also be required to provide a government agency or another financial institution with information about transactions that have occurred in a shareholder's account or to transfer monies received to establish a new account, transfer an existing account or transfer the proceeds of an existing account to a governmental agency. In some circumstances, the law may not permit the Funds or the Distributor to inform the shareholder that it has taken the actions described above.

HOW TO BUY, SELL AND EXCHANGE SHARES

Once you have established an account with Davis Funds, you can add to or withdraw from your investment. This prospectus describes the types of transactions you can perform as a Davis Funds shareholder including how to initiate these transactions and the charges that you may incur (if any) when buying, selling or exchanging shares. A transaction will not be executed until all required documents have been received in a form meeting all legal requirements. Legal requirements vary depending upon the type of transaction and the type of account. Call Investor Services for instructions. These procedures and charges may change over time and the prospectus in effect at the time a transaction is initiated will describe the procedures and charges which will apply to the transaction.

RIGHT TO REJECT OR RESTRICT ANY PURCHASE OR EXCHANGE ORDER

Purchases and exchanges should be made for investment purposes only. Davis Funds and the Distributor reserve the right to reject or restrict any purchase or exchange order for any reason. Davis Funds are not designed to serve as a vehicle for frequent trading in response to short-term fluctuations in the securities markets. Accordingly, purchases or exchanges that are part of activity that Davis Funds or the Distributor have determined may involve actual or potential harm to a Fund may be rejected.

FOUR WAYS TO BUY, SELL AND EXCHANGE SHARES

- **BY TELEPHONE.** Call 1-800-279-0279. You can speak directly with a Davis Funds professional during our business hours (9 a.m. to 6 p.m. Eastern time) or use our automated telephone system at any time, day or night.
- **BY ONLINE ACCOUNT ACCESS.** You may initiate most account transactions through online account access on our website, www.davisfunds.com. Please note that certain account types may be restricted from online access.
- **BY MAIL.** Send the request to our service provider, State Street Bank and Trust Company.

Regular mail:

Davis Funds
c/o State Street Bank and Trust Company
P.O. Box 8406, Boston, MA 02266-8406

Express shipping:

Davis Funds
c/o State Street Bank and Trust Company
30 Dan Road, Canton, MA 02021

- **BY DEALER.** Contact a dealer who will execute the transaction through the Distributor. Please note that your dealer may charge service fees or commissions for these transactions.

The Davis Funds do not issue certificates for any class of shares. Instead, shares purchased are automatically credited to an account maintained for you on the books of the Davis Funds by State Street Bank and Trust. Transactions in the account, such as additional investments, will be reflected on regular confirmation statements from the Transfer Agent. Dividend and capital gain distributions, purchases through automatic investment plans and certain retirement plans, and automatic exchanges and withdrawals will be confirmed at least quarterly.

WHEN YOUR TRANSACTIONS ARE PROCESSED

The per-share price for purchases or sales made through the Distributor will be processed on the same day if the order is received before 4 p.m. Eastern time. If State Street Bank and Trust requires additional documents to complete the purchase or sale, the transaction price will be determined at the close of business after all required documents are received.

For your transaction to be counted on the day you place your order with your broker-dealer or other financial institution, they must:

- Receive your order before 4 p.m. Eastern time; and
- Promptly transmit the order to State Street Bank and Trust.

BUYING MORE SHARES

- **BY MAIL.** When you purchase shares by mail, send a check made payable to DAVIS FUNDS for the amount of purchase to our service provider, State Street Bank and Trust. If you have the purchase form from your most recent statement, include it with the check. If you do not have a purchase form, include a letter with your check stating the name of the Fund, the class of shares you wish to buy and your account number.
- **THROUGH A DEALER.** When you buy shares through a dealer, you may be charged service fees or commissions for these transactions.
- **BY WIRE.** You may wire federal funds directly to our service provider, State Street Bank and Trust. To ensure that the purchase is credited properly, follow these wire instructions:

State Street Bank and Trust Company
Boston, MA 02210
Attn: Mutual Fund Services
[NAME OF DAVIS FUND AND CLASS OF SHARES THAT YOU ARE BUYING]
Shareholder Name
Shareholder Account Number
Federal Routing Number 011000028
DDA Number 9904-606-2

SELLING SHARES

You may sell back all or part of your shares in any Davis Fund in which you invest (also known as redeeming your shares) on any business day at net asset value. You can sell the shares by telephone, by internet, by mail or through a dealer.

When you sell shares by mail, indicate the number of shares or the dollar amount you wish to redeem and send the request to our service provider, State Street Bank and Trust. If more than one person owns the shares you wish to sell, all owners must sign the redemption request. You may be required to have the owners' signatures medallion-guaranteed (see "Medallion Signature Guarantee" below).

When you sell shares through a dealer, you may be charged service fees or commissions by the dealer for these transactions.

Redemption proceeds are usually paid to you by check within seven days after State Street Bank and Trust receives your proper redemption request. You may redeem shares on any business day. Redemption proceeds may be withheld until a sufficient period of time has passed for State Street Bank and Trust to be reasonably sure that all checks or drafts (including certified or cashier's checks) for shares purchased have cleared, normally not exceeding fifteen calendar days.

WHAT YOU NEED TO KNOW BEFORE YOU SELL YOUR SHARES

- You will always receive cash for sales that total less than \$250,000 or one percent of a Fund's net asset value during any ninety-day period. Any sales above the cash limit may be paid in securities and would mean you would have to pay brokerage fees if you sold the securities.
- You will need a medallion signature guarantee on a stock power or redemption request for sales paid by check totaling more than \$100,000. However, if your address of record has changed in the last 30 days, or if you wish to send redemption proceeds to a third party, you will need a medallion signature guarantee for all sales.
- In the past, the Davis Funds issued certificates for its shares. If a certificate was issued for the shares you wish to sell, the certificate must be sent by certified mail to State Street Bank and Trust and accompanied by a letter of instruction signed by the owner(s).
- A sale may produce a gain or loss. Gains may be subject to tax.
- The Securities and Exchange Commission may suspend redemption of shares under certain emergency circumstances if the New York Stock Exchange is closed for reasons other than customary closings and holidays.

MEDALLION SIGNATURE GUARANTEE

To protect you and the Davis Funds against fraud, certain redemption requests must be made in writing with your signature guaranteed. A medallion signature guarantee is a written endorsement from an eligible guarantor institution that the signature(s) on the written request is (are) valid. Certain commercial banks, trust companies, savings associations, credit unions and members of a United States stock exchange participate in the medallion signature guarantee program. No other form of signature verification will be accepted.

STOCK POWER

This is a letter of instruction signed by the owner of Fund shares that gives State Street Bank and Trust permission to transfer ownership of the shares to another person or group. Any transfer of ownership requires that all shareholders have their signatures medallion-guaranteed.

WIRING SALE PROCEEDS TO YOUR BANK ACCOUNT

You may be eligible to have your redemption proceeds electronically transferred to a commercial bank account by federal funds wire. There is a \$5 charge by State Street Bank and Trust for wire service and receiving banks may also charge for this service. Proceeds of redemption by federal funds wire are usually credited to your bank account on the next business day after the sale. Alternatively, redemption through Automated Clearing House will usually arrive at your bank two banking days after the sale. To have redemption proceeds sent by federal funds wire to your bank, you must first fill out the Banking Instructions section on the account application form and attach a voided check or deposit slip. If the account has already been established, an Account Service Form or letter of instruction must be submitted with a medallion guarantee and a copy of a voided check or deposit slip.

EXCHANGING SHARES

You can sell Class Y shares of any Davis Fund to buy Class Y shares in any other Davis Fund. This is known as an exchange. You can only exchange shares from your account within the same class and under the same registration. You can exchange shares by telephone, by internet, by mail or through a dealer. The initial exchange must be for at least \$5 million for institutions or government entities or minimums set by wrap program sponsors. Class A shareholders who are eligible to buy Class Y shares may also exchange their shares for Class Y shares of the Fund. Exchanges are normally performed on the same day of the request if received in proper form (all necessary documents, signatures, etc.) by 4 p.m. Eastern time.

When you exchange shares by mail, you must send our service provider, State Street Bank and Trust, a written request for the exchange. In the past, the Davis Funds issued certificates. If you wish to exchange shares for which you hold share certificates, these certificates must be sent by certified mail to State Street Bank and Trust accompanied by a letter of instruction signed by the owner(s). If your shares are being sold for cash, this is known as a redemption. Please see "What You Need to Know Before You Sell Your Shares" in this prospectus for restrictions that might apply to this type of transaction.

When you exchange shares through a dealer, you may be charged a service fee or commission for each transaction.

Before you decide to make an exchange, you must obtain the current prospectus of the desired Davis Fund. For federal income tax purposes, exchanges between Davis Funds are treated as a sale and a purchase. Therefore, there will usually be a recognizable capital gain or loss due to an exchange.

MARKET TIMING

Davis Funds discourage short-term or excessive trading, often referred to as "market timing," and intend to seek to restrict or reject such trading or take other action if in the judgment of Davis Advisors such trading may be detrimental to the interests of a Fund and its long-term shareholders. Market timing strategies may dilute the value of fund shares held by long-term shareholders, interfere with the efficient management of the Fund's portfolio, and increase brokerage and administrative costs.

Davis Funds' Board of Directors has adopted policies and procedures with respect to the frequent purchases and redemption of fund shares. Currently, four round-trip exchanges between Davis Funds are allowed during any twelve month period. You may make an unlimited number of exchanges out of Davis Government Money Market Fund. Automatic exchanges are excluded from this provision. Certain financial intermediaries, such as 401(k) plan administrators, may apply purchase and exchange limitations which are different than the limitations discussed above. These limitations may be more or less restrictive than the limitations imposed by the Davis Funds, but are designed to detect and prevent excessive trading. Shareholders should consult their financial intermediaries to determine what purchase and exchange limitations may be applicable to their transactions in the Davis Funds through that financial intermediary. To the extent reasonably feasible, the Funds' market timing procedures apply to all shareholder accounts and neither Davis Funds nor Davis Advisors have entered into agreements to exempt any shareholder from application of either the Davis Funds' or a financial intermediary's market-timing procedures, as applicable.

Davis Funds and Davis Advisors use several methods to reduce the risk of market timing. These methods include (i) limiting annual exchange activity per fund account; and (ii) committing staff to selectively review on a continuing basis recent trading activity in order to identify trading activity that may be contrary to the Funds' market timing policy.

If Davis Funds determine that your purchase or exchange patterns reflect a market timing strategy, Davis Funds reserve the right to take any action permitted under applicable rules and standards, including but not limited to (i) refusing to accept your orders to purchase Fund shares; and/or (ii) restricting the availability of exchanges through telephone requests, facsimile transmissions, automated telephone services, internet services or any electronic transfer services.

Davis Funds receive purchase exchange and redemption orders from many financial intermediaries which maintain omnibus accounts with the Funds. Omnibus account arrangements permit financial intermediaries to aggregate their clients' transaction and ownership positions. Davis Funds are limited in their ability to monitor the trading activity or enforce the Funds' market timing policy with respect to customers of financial intermediaries. Shareholders seeking to engage in excessive trading practices may employ a variety of strategies to avoid detection. The ability of Davis Funds to detect and curtail excessive trading practices may also be limited by operational systems and technological limitations.

TELEPHONE TRANSACTIONS

A benefit of investing through Davis Funds is that you can use our automated telephone system to buy, sell or exchange shares. If you do not wish to have this option activated for your account, complete the appropriate section of the Application Form.

When you call Davis Funds you can perform a transaction in one of two ways:

- Speak directly with a professional during business hours (9 a.m. to 6 p.m. Eastern time).
- If you have a TouchTone^(TM) telephone, you can use Davis Funds' automated telephone system, known as DAVIS DIRECT ACCESS, 24 hours a day, seven days a week.

When you buy, sell or exchange shares by telephone instruction, you agree that the Davis Funds are not liable for following telephone instructions believed to be genuine (that is, directed by the account holder or registered representative whose name is on file). We use certain procedures to confirm that your instructions are genuine, including a request for personal identification and a tape recording of the conversation. If these procedures are not used, the Fund may be liable for any loss from unauthorized instructions.

Be aware that during unusual market conditions, Davis Funds may not be able to accept all requests by telephone.

INTERNET TRANSACTIONS

You can use our website — www.davisfunds.com — to review your account balance and recent transactions. Your account may qualify for the privilege to purchase, sell or exchange shares online. You may also request confirmation statements and tax summary information to be mailed to the address on file. Please review our website for more complete information. If you do not wish to have this option activated for your account, please contact Investor Services.

To access your accounts, you will need the name of the Fund(s) in which you are invested, your account number and your Social Security Number. You must also establish a unique and confidential Personal Identification Number (PIN). This PIN is required each time you access your Davis account online.

When you buy, sell or exchange shares over the Internet, you agree that the Davis Funds are not liable for following instructions believed to be genuine (that is, directed by the account holder or registered representative on file). We use certain procedures to confirm that your instructions are genuine. If these procedures are not used, the Funds may be liable for any loss from unauthorized instructions.

OTHER INFORMATION

DIVIDENDS AND DISTRIBUTIONS

- The Davis Long-Term Growth Funds (i.e. Davis New York Venture Fund, Davis Opportunity Fund, Davis Financial Fund, and Davis Global Fund) ordinarily distribute their dividends and capital gains, if any, in December.
- The Davis Growth & Income Funds (i.e. Davis Real Estate Fund and Davis Appreciation & Income Fund) ordinarily distribute dividends quarterly and capital gains, if any, in December.
- Davis Government Bond Fund and Davis Government Money Market Fund ordinarily distribute dividends monthly. Davis Government Bond Fund ordinarily distributes capital gains, if any, in December. Davis Government Money Market Fund does not ordinarily distribute capital gains.
- When a dividend or capital gain is distributed, the net asset value per share is reduced by the amount of the payment. Davis Government Bond Fund's and Davis Government Money Market Fund's net asset values are not affected by dividend payments.
- You may elect to reinvest dividend and/or capital gain distributions to purchase additional shares of any Davis Fund, or you may elect to receive them in cash. Many shareholders do not elect to take capital gain distributions in cash because these distributions reduce principal value.

- If a dividend or capital gain distribution is for an amount less than \$10, the Fund will not issue a check. Instead, the dividend or capital gain distribution will be automatically reinvested in additional shares of the Fund.
- If a dividend or capital gain distribution check remains uncashed for six months or is undeliverable by the United States Postal Service, we will reinvest the dividend or distribution in additional shares of the Fund promptly after making this determination; and future dividends and capital gains distributions will be automatically reinvested in additional shares of the Fund.

FINANCIAL HIGHLIGHTS

These tables are designed to show you the financial performance of Davis New York Venture Fund for the past five years, assuming that all dividends and capital gains have been reinvested. Some of the information reflects financial results for a single Fund share. The total returns represent the rate at which an investor would have earned (or lost) money on an investment in the Fund.

This information has been audited by KPMG LLP. KPMG LLP's report, along with the Fund's financial statements, is included in the Annual report, which is available upon request.

PRIVACY NOTICE

While you generally will be dealing with a broker-dealer or other financial adviser, we may collect information about you from your account application and other forms that you may deliver to us. We use this information to process your requests and transactions; for example, to provide you with additional information about our funds, to open an account for you, or to process a transaction. In order to service your account and execute your transactions, we may provide your personal information to firms that assist us in servicing your account, such as our transfer agent. We may also provide your name and address to one of our agents for the purpose of mailing to you your account statement and other information about our products and services. We require these outside firms and agents to protect the confidentiality of your information and to use the information only for the purpose for which the disclosure is made. We do not provide customer names and addresses to outside firms, organizations or individuals except in furtherance of our business relationship with you or as otherwise allowed by law.

We restrict access to nonpublic personal information about you to those employees who need to know that information to provide products or services to you. We maintain physical, electronic and procedural safeguards that comply with federal standards to guard your personal information.

OBTAINING ADDITIONAL INFORMATION

Additional information about the Fund's investments is available in the Fund's ANNUAL AND SEMI-ANNUAL REPORTS to shareholders. In the Fund's Annual Report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its last fiscal year. The STATEMENT OF ADDITIONAL INFORMATION provides more detailed information about Davis Funds and their management and operations. The Statement of Additional Information and the Fund's Annual and Semi-Annual Reports are available, without charge, upon request.

The Davis Funds' Statement of Additional Information and Annual Report have been filed with the Securities and Exchange Commission, are incorporated by reference, and are legally a part of this prospectus.
