Business Administration	Retention Rate	70%	50.0%

**Calculations for Measures**

<b>MEASURE</b>	<b>DESCRIPTION AND HOW IT WAS CALCULATED</b>
Graduation Rate	The graduation rate is calculated by the Office of Institutional Research based on a 6-year graduation rate for undergraduate programs and a 3-year graduation rate for Master’s programs. The graduation rate (percent) is based on a comparison of the number (N) of students who entered a college or university and the number of those who graduated within six (three for Master’s) years. The results indicated are for headcount starting in Academic Year (AY) 2017-2018 ending AY 2022-2023
Retention Rate	The retention rate is calculated by the Office of Institutional Research as the number of first year students returning the following year. The results indicated utilize AY (2022) 2021-2022 to Fall 2022-2023 (2023)
