

FLORIDA TECH PROFESSIONAL ENRICHMENT PROGRAMS ARCGIS

DESKTOP II: TOOLS AND FUNCTIONALITY

**Stimulus Special
Discount!
\$995**

The ArcGIS Desktop II: Tools and Functionality course is taught by Mr. Kevin Gray, a local GIS analyst and ATP ESRI certified professional trainer. Mr. Gray has more than 10 years experience as a GIS Analyst! He has used ArcGIS for cartography, geoprocessing, spatial analysis, and 3-D visualization. He has instructed many co-workers and students in the effective use of the ESRI ArcGIS suite of software. Professionals with an ESRI ArcGIS certificate will have the skills to work in Engineering, Architecture, Geology, Cartography, Urban and Environmental Planning, Geology, Environmental Science, and more!

The professional ESRI certificate course is conducted at the Florida Institute of Technology main campus, but can be scheduled on site at your place of business, on your schedule! To find out more contact Nicole Hoier, Director of Professional Enrichment Programs!

Day 1
