

The addition or removal of any graduation requirement in a major requires that this form, accompanied by any supporting documentation, be completed and approved as indicated below.

College/School Florida Tech Department Civil Engineering

Degree level Bachelor of Science Program title Civil Engineering

To be initiated with catalog year 20 05 /20 06

Brief description of requested changes (attach a more detailed description and any supporting documentation)

Under the present program degree requirements, all students are required to take a structures elective in the junior year of the Civil Engineering curriculum. The students are allowed to take one of the following courses to fulfill this requirement: CVE 4011, Computer Analysis of Structures, CVE 4016, Reinforced Concrete CVE 4019, Timber Structures, and CVE 4013, Steel Structures. After having reviewed these electives, the program faculty recommended that starting Accademic Year 2004-2005, students in the Civil Engineering program should no longer be allowed to substitute CVE 4011, Computer Analysis of Structures for the required Structures Elective.
