

Greetings,

At the UGCC meeting of 11/14/03 the following items were addressed:

1. Dr. McCay related his impressions of Florida Tech along with some of his goals. New programs must be viable and high quality as well as academically sound. The curriculum should have the flexibility to easily accommodate transfer students.
2. The issue of free elective credit for COM 1100 was discussed. The consensus was that remedial courses such as COM 1100, MTH 1101 and ESL offerings should be renumbered to below 1000. The definition of a free elective should be modified to read "Free electives may be any courses 1000 level or above taken at Florida Tech, or courses taken elsewhere if course-specific transfer credit is awarded by Florida Tech..." This proposed change will be voted on at the next meeting. Cookie Young will recommend appropriate course numbers for the remedial courses.

Please note: The next UGCC meeting is Friday, December 5 at 8:00 am.
