FROM: Alexander R. Vamosi, Associate Dean COB

THRU: Robert Niebuhr, Dean COB

SUBJECT: Changing Restrictions in a Course --- BUS 4702

The College of Business is requesting approval to remove all existing restrictions associated with BUS 4702 Business Strategy and Policy, and to add a new corequisite restriction.

- The existing restrictions include Prerequisites: BUS 4501 (Production Operations Management), and Corequisites: BUS 4284 or BUS 4584 or BUS 4782 or BUS 4784 (Practicum courses).
- The new restriction is Corequisites: BUS 4000 Research 2. This is the second course in a three-course QEP research experience that was approved by UGCC January 2009.

College of Business students are currently required to take both BUS 4702 and Practicum in their last semester. The requirements set by QEP effectively moves BUS 4702 to the second to last semester prior to graduation, and negate the existing restrictions.
The addition or removal of any restriction or change in credit hours in a course requires that this form, accompanied by any supporting documentation, be completed and approved as indicated below.

SUBJECT: Changing Graduation Requirements --- Accounting Major (code 7267)

The College of Business is requesting to change the graduation requirements for its Accounting Major (major code 7267). Specifically, we wish to replace two restricted electives with two required courses as summarized in the following table.

JUSTIFICATION

For applicants to be eligible to sit for the Uniform Certified Public Accountant (CPA) Examination as candidates for licensure in the state of Florida, the Florida Department of Business and Professional Regulation Division of Certified Public Accounting requires education “to include six semester hours of business law with coverage of contracts, torts, and the Uniform Commercial Code.” In order to meet this requisite of six semester hours of business law, it is necessary to require students to take a second business law course that covers advanced legal topics (BUS 4218).

The Securities Exchange Committee and other regulatory bodies in the United States are pressing ahead with International Financial Reporting Standards efforts. The deadlines for convergence of United States Generally Accepted Accounting Principles with these international accounting and reporting standards are imminent. As such, BUS 4220 is necessary to properly prepare students for new requirements tested by the CPA exam and for professional accounting knowledge demanded by employers in our global environment.
The addition or removal of any graduation requirement in a major or minor requires that this form, accompanied by any supporting documentation, be completed and approved as indicated below.
