

The addition or removal of any graduation requirement in a major or minor requires that this form, accompanied by any supporting documentation, be completed and approved as indicated below.

COLLEGE Engineering DEPARTMENT Marine and Environmental Systems

DEGREE LEVEL BS PROGRAM TITLE Meteorology

TO BE INITIATED WITH CATALOG YEAR 20 10 /20 11 CHANGE REQUESTED FOR major program minor program 7224
Major/Minor Code

BRIEF DESCRIPTION OF REQUESTED CHANGES *Attach a more detailed description and any supporting documentation*

It is proposed that MTH3201 (Boundary Value Problems) be removed as a requirement from the Meteorology BS curriculum. In its place, a restricted elective should be selected from a course related to their major from either MET, ENS, COM, OCN, or MTH. MTH3201 is not required by our peer institutions in order to earn a BS degree in Meteorology. The intention is to allow for greater flexibility within the undergraduate meteorology program as we believe it will better serve our students given the highly competitive job market and increasing demands as they enter the workforce. For student that desire to attend graduate school, MTH3201 will be the recommended option.

Approvals: On completion of appropriate department approvals, submit form to Chair, Graduate Council, or Chair, Undergraduate Curriculum Committee, for approval below and forward to the Office of the Registrar
