FastTrack Supplemental Application

For students interested in accelerated master's degree program

Flight Student Checklist

For students applying to the College of Aeronautics who are interested in a flight training program

Please also remember to send us your standardized test scores and complete essay in addition to the above.

ProTrack Engineering Co-op Program

Short for "cooperative education" or cooperative learning," co-op is the combination of traditional classroom learning with the practical paid work experience. Students enrolling in a co-op program traditionally alternate semester of full-time study with full-time work over the course of their undergraduate degree curriculum. Florida Tech's ProTrack Engineering Co-op combines the proven benefits of traditional university cooperative education with a one-of-a-kind, student-centered approach. Our unique 3-in-4 curriculum structure allows both U.S. and international engineering students to complete three semester-long paid work experiences related to their major and career interests while still earning a bachelor's degree in four years. Engineering and non-engineering students alike also have the opportunity to undertake exciting internships at dynamic local companies, in which they gain practical experience and explore careers of the future. Experiential learning is a key element of a Florida Tech education and is available to students attending college for the first time, transfer students, U.S. citizens and international students.

Visit www.fit.edu/co-op for more information.

FastTrack Master's Program

The FastTrack master's program give motivated students the option of taking graduate course work as undergraduate so they can complete a master's degree in as little as one additional year of study. Enrolling in the program also gives students the to bypass the time commitment, anxiety and cost of graduate admission requirements; the ability to keep any awarded Florida Tech undergraduate scholarships during the fifth year of studies as a full-time graduate student' the opportunity to replace a scholarship with a lucrative graduate or research assistantship plus stipend' and a head-start on an exciting career of the future. Earned scholarships carry over to the fifth year. FastTrack is open to all undergraduates and is comprised of the following combined, accelerated degree programs.

- B.S./Masters of Arts in Teaching
- B.S./Masters of Business Administration
- B.S./M.S. in Aviation
- B.S./M.S. in Computer Science
- B.S./M.S. in Engineering
- B.S./M.S. in Science
- B.S./M.S. in Technical and Professional Communication
