

International students who apply before January 15 and meet the minimum criteria for the Florida Tech Scholarship program will automatically be considered for these awards. Scholarships are awarded at the time of official admission and are renewable for each of four years of attendance if the student maintains a cumulative GPA of at least 3.0 at Florida Tech.

All scholarship applicants to Florida Tech must submit an SAT I or ACT examination score to be considered.

If you have not taken or cannot take an SAT I or ACT, do not meet the minimum criteria for the Florida Tech Scholarship program, or need additional financial support, you may be eligible for a Florida Tech Grant if you complete the information below.

International students are encouraged to secure scholarships from external sources to help fund their U.S. education. Additionally, students may apply for on-campus employment and may work up to 20 hours per week.
