

# RECYCLING PROGRAM

## CHINA CONTINUES REJECTING RECYCLING IMPORTS

The Chinese government has banned the importation of recycled materials from countries abroad, prompting many countries, counties, municipalities and corporations to quit recycling altogether. Due to this, Waste Management continues to enforce more restrictions on single-stream recycling.

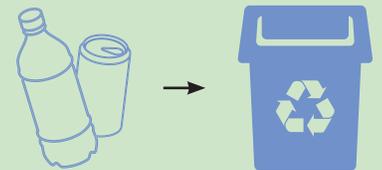

## FLORIDA TECH'S STANCE ON RECYCLING

Florida Tech will continue to recycle as long as there is cooperation and interest from the students, staff and faculty!

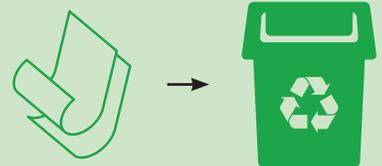

## HOW FLORIDA TECH RECYCLES

Florida Tech is in the process of updating our recycling program. For now:

BLUE recycling bins are CANS and BOTTLES ONLY.

GREEN bins are PAPER ONLY.

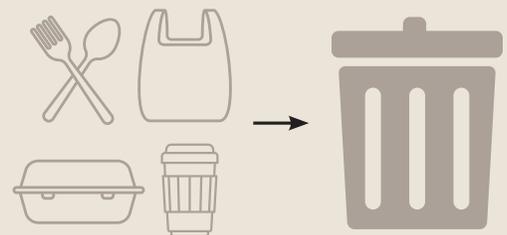

Recycling dumpsters remain CARDBOARD ONLY.

## SPECIFIC ITEMS NOT RECYCLABLE:

- Plastic shopping bags
- Disposable coffee cups
- Post-consumer plastic food containers
- Pizza boxes
- Plastic silverware
- Glass in general
- Yogurt cups

These and all other items must go in the landfill trash cans.

We understand that recycling is a continuously improving process. If you have any questions or concerns, please contact Quinn Duffy in Facilities Operations at [qduffy@fit.edu](mailto:qduffy@fit.edu) or 321-674-8038.
