OPPORTUNITIES FOR GRADUATE STUDENTS
About Us

Founded at the dawn of the space race in 1958, Florida Tech is the only independent, technological university in the Southeast. The university is designated a U.S. News & World Report Tier One Best National University and is recognized by PayScale as the No. 2 college for return on investment in Florida.

Supported by both industry and the community, Florida Tech is the recipient of many research grants and contracts, a number of which provide financial support for graduate students.

How to Apply

» APPLICATION: floridatech.edu/apply

» APPLICATION FEE: $60 master’s; $80 doctoral

» EXAMS: Certain M.S. and Ph.D. programs as well as the Psy.D. program require the GRE. Contact the Office of Admission for waiver policies in effect if applicable.

» TRANSCRIPTS: Transcripts from all postsecondary schools at which you’ve completed 12 or more semester credit hours and/or have received a degree are required. Final official transcripts will be required prior to enrollment.

» LETTERS OF RECOMMENDATION AND/OR STATEMENT OF OBJECTIVES: Required for most programs.

Florida Tech is committed to making education affordable while supporting the continued innovation of its master’s and doctoral degree candidates through graduate student assistantships and the Doctoral Graduate Research Assistant Tuition Scholarship (DGRATS).

Imagine What You Could Discover

When you enroll in one of our graduate degree programs, you are more than a student. You’re one of us—a passionate researcher, scholar and vital part of the team. You won’t find the kind of focused, hands-on education that Florida Tech offers anywhere else. Take a look at some of the specializations in which our graduate students and faculty are currently conducting research:

**Engineering & Science**
- Spacecraft dynamics and control
- Bioinstrumentation, tissue engineering and cell biology
- Climate change and ecology
- Advanced manufacturing and design
- Cybersecurity and machine learning

**Aeronautics**
- Unmanned aircraft systems (UAS)
- Human-autonomy teaming
- Pilot cognition and decision-making
- Urban air mobility human factors
- Cockpit weather technology

**Business**
- Ethical leadership and corporate responsibility
- Accounting and financial forensics
- Strategic planning and growth strategy
- New business development
- Innovation management

**Psychology & Liberal Arts**
- Autism treatment and behavior analysis
- Cross-cultural competency and global leadership
- Nonhuman primate behavior and cognition
- Forensic psychology and criminal justice
