Accelerated master’s programs give highly motivated students the chance to take graduate coursework while still an undergraduate, thus allowing them to finish a master’s degree in less time than they could in a traditional program.

Fast Track students attend commencement ceremonies with both their undergraduate classmates and graduate classmates. Students interested in pursuing a Fast Track master’s degree at Florida Tech should refer to the program descriptions and requirements below and apply by contacting your academic advisor.

**FAST TRACK PROGRAM DESCRIPTIONS AND REQUIREMENTS**

*Applicants interested in pursuing a master’s degree in a discipline different than their bachelor’s degree should speak with the academic unit offering the master’s program to ensure the applicant has sufficient academic background before applying.

**B.S./M.S. in Aviation** *(Airport Development and Management or Applied Aviation Safety)*
Combines a bachelor’s degree with a master’s degree in aviation. Any undergraduate major with a 3.3 cumulative GPA who has completed 95 credits is eligible.

**B.S./M.S. in Aviation** *(Human Factors)*
Combines select bachelor’s degrees with a master’s degree in aviation human factors. All aeronautics, applied psychology, computer science or engineering undergraduate majors with a 3.3 cumulative GPA who have completed 95 credits are eligible.

**B.S./M.S. in Engineering and Science**
Combines a bachelor’s degree in engineering, science, computer science, mathematics, education, with a master’s degree in each of those programs. Human-centered design and engineering management combines any bachelor’s degree in any major with a master’s degree in human-centered design or engineering management. Any undergraduate major with a 3.4 cumulative GPA who has completed 95 credits is eligible.

**B.S./M.S. in Global Strategic Communication**
Combines a bachelor’s degree with a master’s degree in global strategic communication. Any undergraduate major with a 3.4 cumulative GPA who has completed 95 credits is eligible.

**FIVE REASONS TO FINISH IN FIVE**

1. **Earn up to six graduate credits in your senior year without the cost of graduate tuition (a $7,074 saving)**
2. **Bypass the time commitment, anxiety and costs of graduate admission requirements**
3. **Students in FastTrack master’s programs keep 60% (up to $12,000) of your Florida Tech undergraduate scholarship(s) during your fifth year of studies as a full-time graduate student (minimum nine credits per semester)**
4. **Gain the opportunity to replace your scholarship with a lucrative graduate or research assistantship plus wages**
5. **Complete a Florida Tech master’s degree in less time than you would via traditional programs**
