Subject: Novel Coronavirus update

Campus Community:

Florida Tech is aware of the recent news regarding the outbreak of Novel Coronavirus, primarily in China but now with one case in Washington state involving a man who returned home from China.

The university will continue to monitor the situation.

If you have recently travelled to the following countries – China, Taiwan, Thailand, Japan or South Korea – and feel ill, please visit Florida Tech’s Holzer Health Center or your medical provider for a health screening, being sure to mention your recent travel from these countries immediately to the provider.

Here is some additional information about the virus from The Centers for Disease Control and Prevention: https://www.cdc.gov/coronavirus/2019-ncov/about/index.html

If you have any questions or concerns, you may send them to Florida Tech’s Department of Environmental Health & Safety at ehs@fit.edu.

Thank you.
