PhD Dissertations Dissemination Agreement

This Agreement is between the author (Author) and ProQuest LLC, through its ProQuest dissertation business (ProQuest). Under this Agreement, the Author grants ProQuest certain rights to preserve, archive and disseminate the dissertation or thesis, abstract, and index terms (the Work) provided by Author to ProQuest.

License for Inclusion of the Work in the ProQuest Program.

Grant of Rights. Author hereby grants to ProQuest the non-exclusive, worldwide right to reproduce, distribute, display and transmit the Work (in whole or in part) in such tangible and electronic formats as may be in existence now or developed in the future. Author further grants to ProQuest the right to include the abstract, bibliography and other metadata in the *ProQuest Dissertations and Theses Global* database (PQDT) and in ProQuest's *Dissertation Abstracts International* and any successor or related index and/or finding products or services.

ProQuest Dissemination Program - Election and Elements. The rights granted shall be subject to the following additional requirements:

Redistribution of the Work. Except as restricted by the Author, the rights granted by the Author automatically include (1) the right to allow sale and distribution of the Work, in whole or in part, by agents and distributors, and (2) the right to make the Abstract, bibliographic data and any metadata associated with the Work available to search engines and harvesters.

Restrictions.

ProQuest will use commercially reasonable efforts to restrict the distribution of the Work as provided under the publishing option selected by Author or as later elected by Author through direct contact with ProQuest. Such election is subject to Author's Degree Granting Institution Directives (see below). With respect to restrictions requested after submission of the Work, Author acknowledges that ProQuest cannot recall or amend previously distributed versions of the Work.

Removal of Work from the Program.

ProQuest may elect not to distribute the Work if it believes that all necessary rights of third parties have not been secured. If Author's degree is rescinded, and the degree granting institution so directs, ProQuest will expunge the Work from its publishing program in accordance with its then current publishing policies.

The Author will retain the right to remove the work from the ProQuest program. ProQuest will remove the Work upon written request from the Author.

Degree Granting Institution Directives.

Author is solely responsible for any conflict between policies and directions of Author's degree-granting institution, Author's choice of publishing model, and/or any restriction Author places on the use of the Work. For the avoidance

CC BY-SA: This license lets others remix, tweak, and build upon your work even for commercial purposes, as long as they credit you and license their new creations under the identical terms. This license is often compared to "copyleft" free and open source software licenses. All new works based on yours will carry the same license, so any derivatives will also allow commercial use. This is the license used by Wikipedia.
