GETTING STARTED

You’re registered and signed in — now what? Begin by completing program activities and building healthier habits one day at a time. Here are a few options to help you get started.

Personal Health Assessment
The Personal Health Assessment asks questions about your current health status and well-being habits. Once completed, your responses will be analyzed to generate a health score, show your health risks and provide practical tips to help you improve. Complete the survey by visiting Personal Health Assessment under the Health tab.

Pillars and Topics
Looking to reduce stress, increase your energy throughout the day or find the motivation to continue progress toward your well-being goals? The Pillars and Topics section can point you in the right direction, providing quick access to many helpful tools and resources. Visit the Pillars page by selecting the Profile icon and select Pillars to learn more.

Nutrition Guide
Maintaining healthy eating habits is easier when you have a little help. Access the Nutrition Guide and choose your eating profile. Tell us what you’d like to work on, like cutting out sweets or portion control, and we’ll serve up plenty of healthy and delicious tips and recipes. Learn more by selecting Nutrition Guide under the Health tab.

Sleep Guide
Sleep affects nearly every aspect of your health, from your everyday performance and immune system to your ability to focus on other areas of your well-being. When you complete the Sleep Guide, you’ll end up with a customized plan for improving the length and quality of your slumber, setting you up for success — day and night. Learn more by selecting Sleep Guide under the Health tab.
