Items Of Extraordinary Value

Protecting your valuable items is important to us. In order to help with that process, we need you to tell us, in writing, about anything that we'll be moving that is of an extraordinary value. Items of extraordinary value are defined as those items having a value greater than $100 per pound per article.

Because Mayflower's liability for your shipment is limited to the written declaration of value which you place on the Bill of Lading, you should include the value of all items, including all items of extraordinary value, in the total amount of released value which you declare for your goods. Please note that protection for items of extraordinary value is not available for shipments which are released to Mayflower at a value of $.60 per pound per article Minimum Liability Option.

If you plan to move items of extraordinary value you must complete and sign a High-Value Inventory form prior to your move. In the event of a claim, any settlement is limited to the valuation you declare for the entire shipment. If you fail to list all items of extraordinary value and/or fail to sign the High-Value Inventory form, Mayflower's liability for loss of or damage to those items will be limited to no more than $100 per pound per article, based upon the actual weight of the article. (This does not apply to shipments under the Minimum Liability Option.)
